A NOTE FROM THE EVANS

We want to update you on Steve's journey through the world of cancer treatment. After six months of immune and chemo therapy treatments to help control the Non Hodgkin Follicular Lymphoma that was diagnosed in 2020, the cancer had responded exceptionally well. However, shortly after that treatment ended, Steve noticed a mass developing on his body, and testing showed two cancerous masses of Diffuse Large B Cell Lymphoma.

Steve began new round of immune and chemo therapies last week. A full update is in this week's email, but we value your prayer beyond measure.

Blessings and love,
Patty and Steve Evans

A Note From The Pastor

Dear Church Family,

In Philippians 4:17 as Paul encourages the church in their partnership in the gospel and his mission work, he says, "Not that I seek the gift, but I seek the fruit that increases to your credit." I shared last week that the staff and elders have been spending time in Philippians so this verse has been on my mind as I've been meeting with the GO team and as I'm preparing to go to Europe.

Most of us will never go to the distant or even dangerous places that Cole To The World's global workers are living. Most of us will never go to pockets of Europe where Gospel ministry is also truly a need, but, here's the amazing thing that Paul tells us: the missions we get involved in are actually credited to our own lives—as if we went ourselves!

I think it's important if we are going to do "fundraisers" that we realize that it's not about our money, but it's an opportunity to partner. The radical grace of God lets us bear fruit on faraway places simply through our partnership with those who go is truly amazing. So, as we approach a summer of Global workers visiting Cole Community, as we have teams visiting here on Sunday, and as you send me to Europe, praise God that we are all in this together. It's "our mission" for His glory!
